

RESUME SNAPSHOT

Mistan Khomdram

Cybersecurity analyst focused on SOC operations, penetration testing, malware analysis, homelab detection engineering, and Python security automation.

TOOL

PhishLens

LAB

Wazuh Homelab

WRITING

SOC + Malware

STATUS

Current Work

FOCUS

- SOC alert triage and incident response workflow
- Penetration testing labs and reconnaissance tooling
- Malware triage, IOC extraction, and writeup documentation
- Wazuh-based homelab monitoring and detection practice

CREDENTIALS

- Certified Ethical Hacker (CEH)
- CompTIA Security+
- eLearnSecurity Junior Penetration Tester (eJPT)
- Google Cybersecurity Certificate

TOOLBOX

Wazuh

Burp Suite
